### GENERAL CERTIFICATION OF CONFORMITY

Consumer Product Safety Improvement Act of 2008, Public Law: 110–314—AUG. 14, 2008

#### CERTIFICATION OF COMPLIANCE

1. Children's home playground sets series name "SPIDER-WALL", designs numbers DSK 4.02.01 and DSK 4.02.03 (hereinafter referred as PRODUCT) is a mountable-and-dismountable frame construction consisted of metal tubes which are fastened thrust between floor and ceiling. The product does not contain dangerous for health and life substances. The main configuration elements on the PRODUCT are vertical ladder; two vertical stanchions; horizontal movable frame; horizontal ladder. Main parameters of the PRODUCT: length 6'5,8", width 3'1,6", height from from 7'6,5" till 9'10,8", net weight not more than 66 lb, colors – green/yellow and/or red/yellow.

2. Citation of each CPSC product safety regulation to which this product is being certified:

2.1. Section 103 of the Consumer Product Safety Improvement Act of 2008, Public Law: 110–314—AUG. 14, 2008 (CPSIA (codified at 15 U.S.C. §2063(a)(5))) requires product Tracking Labels to be placed on each product and its packaging.

Each PRODUCT and its packaging bears required Tracking Label.

2.2. Section 101 (a)(2)(B) of the CPSIA (codified at 15 U.S.C.1278a) requires that lead limit in content of children's products must not exceed 300 parts per million total lead content by weight for any part of the product.

Sufficient samples of the PRODUCT identical in all material respects to the finished PRODUCT were tested by the manufacturer (using reasonable testing program) and by the CPSC-recognized third-party conformity assessment body (see clauses 6 & 7 below for details) to evaluate the lead in content level. The results determines that the lead in content limit referred to in the above mentioned Section is not exceeded (please see also attached report №TR194785 from May 13<sup>th</sup>, 2010).

2.3. Section 101 of the CPSIA (f)(1) (codified at 15 USC 1278a) requires that the lead in paint or similar surface coating on any children's product may not exceed 0.009% by weight (16 C.F.R. 1301.1 "Ban of lead-containing paint and certain consumer products bearing lead-containing paint").

Section 102 (a)(2) of the CPSIA (codified at 15 U.S.C. § 2063) requires that before importing for consumption or warehousing or distributing in commerce any children's product that is subject to a children's product safety rule, every manufacturer of such children's product shall submit sufficient samples of the children's product, or samples that are identical in all material respects to the product, to a third party conformity assessment body accredited under CPSIA to be tested for compliance with such children's product safety rule; and based on such testing, issue a certificate that certifies that such children's product complies with the children's product safety rule based on the assessment of a third party conformity assessment body accredited to conduct such tests.

In compliance with these requirements the sufficient samples of PRODUCT identical in all material respects to the finished PRODUCT were sent to CPSC-recognized third-party conformity assessment body (see clause 7 below for details) to be tested. The results of the said testing determine that the lead in paint limit is not exceeded the above requirements (please see attached report №TR194785 from May 13<sup>th</sup>, 2010).

2.4. The safety warning labels on PRODUCT and its' color scheme design don't violate requirements of ANSI Z535.4 Product Safety Signs & Labels, ANSI Z535.3 Criteria for Safety Symbols and ANSI Z535.1 Safety Color Code.

2.5.
